KMC Chain "e9"

Description

9-speed chains from KMC

Chains on pedelecs have to withstand significantly higher stresses than standard chains. More weight, higher speeds and powerful drives are the reasons for this. KMC has developed its E9 chain especially for the pedelec aftermarket.

The e9 is suitable for 9-speed drives. KMC manufactures the chain from stainless steel, which is why it is particularly robust and does not require much maintenance.

A special anti-rust coating makes the chain particularly robust and hard-wearing. In order to be able to close the chain properly, a Connecting Link is included in the scope of delivery, which connects the two loose ends. The note "E-Bike-special" indicates that the chain is specially designed for the requirements of an e-bike.

Article number:	03342987

Technical data

Anti-rust coating	yes
Amount of chain links	136 pcs.
Width	6.6 mm
Width in inch	11/128 "
Main colour	silver
Incl. connecting link	yes
Material 1	stainless steel
Shifting type	derailleur shifting
Weight	0.286 kg
System compatibility	9-speed
Division	1/2
