fi'zi:k Road Shoe "Vento Powerstrap R2 Aeroweave"

Description

Experience top performance with the Fizik "Vento Powerstrap R2 Aeroweave" racing shoes, a shoe specially developed for ambitious cyclists.

The "Vento Powerstrap R2 Aeroweave" impresses with its super-light and extremely breathable Aeroweave upper material. This innovative structure offers optimum ventilation and ensures a comfortable fit - even on long and intensive rides. Added to this is the Full UD carbon outsole, which provides maximum stiffness. With a stiffness index of 10, it ensures efficient power transfer from the foot to the pedals, which is particularly important during competitions and intensive training sessions.

While the Fizik Cycling Insole optimally supports your foot and ensures an ergonomic fit, the Powerstrap fastener allows you to quickly and precisely adjust the shoe to your foot. So you never have to compromise on the correct foot position and a high level of comfort again.
