

SIGMA SPORT Battery LED Rear Light "Blaze"

Description

More safety thanks to brake light function

The "Blaze" from SIGMA SPORT is the first StVZO-approved rear lights from SIGMA SPORT with a brake light function.

It can also be used during the day when the continuous light is switched off, which is particularly beneficial for frequent riders such as commuters and athletes who ride in groups. Another safety plus is the integrated brightness sensor, which automatically activates the rear lights in poor light conditions. The long light duration, the low weight of 22 grams, a visibility range of 500 meters and the affordable price make the "Blaze" an all-rounder for every seatpost.

Article number:	03112851
Original number:	15100
EAN:	4016224151004
EVP:	32.95 €

Technical data

Design	rear light
Features	USB charging connection
Attachment	universal
Range of application	bike
Main colour	black
Functions	brake light, diverse light modes
Operating time max.	7 h
Illuminant	LED
Material 1	plastic
Weight	0.033 kg
Power supply	battery mode
StVZO conform	yes
