

Product data sheet

CONTEC Cable Cover "Shift"

Description

For the well-equipped workshop

Derailleur cables and cable covers ensure smooth and precise shifting and should be replaced when the drivetrain or shifting cables are overhauled. CONTEC Cable Covers simply slip onto the ends of the outer casing, enabling the shifting mechanism to function properly. The CONTEC "Shift" Cable Cover is available in a bottle of 100 pieces and is compatible with all 5 mm derailleur cable outer casings.

The supply bottle is ideal for a well-equipped workshop.
