CONTEC Aluminium Rim "Xeta"

Description

The ideal foundation for building a tubeless-ready wheel for 27.5" (650B) bikes with 32 spokes. Thanks to its hollow-chamber construction, the Xeta rim, made of 6063 aluminum, is particularly lightweight and sturdy. When assembled into a complete wheel, these rims are suitable for a system weight of up to 150 kg. With an inner rim width of 27 mm, tires ranging from 53 to 69 mm in width fit on the rim. The single-eyelet spoke holes ensure additional durability of the Aluminium Rim by reducing friction between the Spoke Nipples and the Aluminium Rim and also preventing the Nipples from grinding into the Aluminium Rim. The Xeta rim is only suitable for wheels with disc brakes. You can find matching tubeless rim tapes in our CONTEC product range.

Technical data

Design	doublewall
Width	31.0 cm
Brake mounting	disc - Center Lock, disc - 5-hole, disc - 6-hole, roller brake, drum brake
Brake compatibility rim	disc
ETRTO	27-584
Main colour	black
For wheel	yes
Height	18.0 cm
Wheel size	27,5 "
Material 1	aluminium
Text wheel configurator	suitable for E-bike
Valve type	Sclaverand (SV)
Permissible system weight	150 kg
Spoke Hole	easy eyelets
Rim height	18 mm
Rim inner width	27 mm
Rim outer width	31 mm
Brake track	no
Number of spoke holes	32 holes
Rim model	Xeta
