CONTEC Light set "Strata 40"

Description

Whether you're biking through shady forests, in the twilight of evening, or at night. As much as these moments make your ride memorable, it's just as important to remain clearly visible to others and not go unnoticed. So why not let the CONTEC Strata Lead 40 light the way for you?

The battery-powered Front Light has two different brightness levels (Level 1: 15 lux, Level 2: 40 lux). This provides clear and bright illumination of both your immediate surroundings and the distance ahead. The front lights also feature a battery level indicator, so you'll never suddenly find yourself in the dark without light.

Thanks to the universally adjustable Bracket, the headlight can be attached to any type of handlebar. The bracket also features a swivel function that lets you adjust the light's angle to suit your needs. When you park your bike, you can quickly slide the rechargeable headlight out of the Holder so you don't have to leave it vulnerable to theft.

The battery (1000mAh) is replaceable, has a USB-C port, and provides up to 11 hours of light, depending on the brightness setting.

The Set also includes the Strata Tail Rear Light. It features a sensor-controlled daytime running light, just like in modern cars. Even when it's bright during the day, an additional light on your bike can help ensure that other road users keep an eye on you.

With a runtime of up to 9 hours, you'll stay well-lit for a long time. When the 300 mAh Battery runs out, you can easily recharge it via USB-C. Thanks to the universally adjustable Bracket, you can attach the Strata Tail to your Carrier, Seatpost, or even your Backpack, for example.
