Product data sheet

FULCRUM Wheel Set "Wind 40C C17"

Article number:	07517022
Original number:	RW40-CFRC
EAN:	8057017985921
EVP:	**1349.00 €**

Technical data

Axle	9mm hollow axle, 10mm hollow axle
Mounting	wheel set
Brake system	for rim brake
Installation width	100 mm, 130 mm
Range of application	road
Main colour	black
Rim type	clincher
Rim colour	black
Freewheel body	CA
Wheel size	28 "
Material	carbon
Material 2	aluminium
Hub colour	black
Shifting system	9-speed, 10-speed, 11-speed, 12-speed
Weight	1.700 kg
Spoke colour	black
Spoke material	stainless steel

Description

FULCRUM "Wind 40C C17" Wheel Set
"All-around" is the keyword for the FULCRUM "Wind 40C C17" model, but that doesn't come at the expense of performance: This Wheel Set was designed for daily rides on all types of roads, whether for training or a long-distance race with your regular group.

The 40 mm profile, made entirely of unidirectional carbon fibers, really shines here: aerodynamics and stability on long flat stages, lightness and agility during pace changes on climbs, and safety and maneuverability on technically demanding descents.

You'll immediately notice the balanced and harmonious interaction between your road bike and the Wind 40: simply install them and discover a new level of performance. To achieve this, our R&D department has combined several of our most proven technologies: The Aluminium Rim, made from unidirectional carbon fibers, is of the Mo-Mag type and therefore has no spoke holes, which enhances stiffness and reliability.

The brake tracks, machined using the AC3 laser process, deliver braking performance like never before: Laser processing removes resin residue from the contact surface with the brake shoes with unparalleled precision, improving performance under all conditions—up to 30% in challenging wet conditions.

To transmit full power during acceleration, an oversized flange was installed on the cassette side, featuring aero spokes arranged in a two-to-one pattern. Wind 40: Technology, performance, substance—but ultimately, it will completely transform the character of your road bike.
