

CONTEC Mudguard set "D-Fender II"

Description

Fast protection for suspension bikes

If you are moving quick on your MTB, but do not want to get hit with unnecessary grime in rainy, muddy or wet conditions, you will love this clip-on fender set by CONTEC. The advantage of these fenders is the simple tool-free quick attachment to the steerer tube and the strap system to the seatpost. "D-Fender II" fits any fork steerer tube internal diameter and seatpost diameter. The assembly is thus possible without unnecessary problems.

The fenders are suitable for bikes with suspension and are made of plastic. They can be mounted on wheels with a size of 26, 28 or 29". Perfect fenders for mountain bike riders who want to use their MTB even in bad weather or in everyday life.
