

SRAM Chainring "X-Sync Road"

Description

Durable & high performance

The SRAM "X-Sync Road" chainring stands for maximum performance and durability in racing and gravel use. Thanks to the special X-Sync technology, the teeth are much more pointed than on conventional chainrings, allowing them to grip the chain earlier. The rounded edges in turn support the smooth Chain Guide. Recesses ensure that dirt and mud are removed directly and do not clog the drive unit. Suitable for 12-speed drives.
