Product data sheet

SRAM Crank Set "Force AXS E1"

Description

The SRAM Force AXS E1 crank sets combine precise power measurement with a high-quality, modern design for 12-speed drives. The fully integrated power meter measures on both sides with an accuracy of ±1.5% and is based on the same technology as the RED series.
The 2-speed chainring set is made of aluminum and is attached using a Screw or Thread Mount system. The design is tailored to a 45 mm chainline - ideal for precise and fast shifting.
The lightweight carbon crank arms ensure high rigidity and efficiency and integrate the power meter inconspicuously into the system. Data is transmitted reliably via Bluetooth and ANT+, while a status LED provides information on operation, calibration and battery status. The tool-free replacement of the CR2032 battery makes maintenance particularly easy and suitable for everyday use.

Article number:	08333267
Original number:	00.6118.739.007

EVP:	**855.00 €**

Technical data

Amount of chain rings	2
Main colour	black
Large chain ring	48 teeth
Small chain ring	35 teeth
Chainline	45.0 mm
Crank length	165.00 mm
Material 1	aluminium
Material 2	carbon
Weight	0.726 kg
System compatibility	12-speed
Bottom bracket	DUB
Variation	set
