

CONTEC Handlebar "Moab 35"

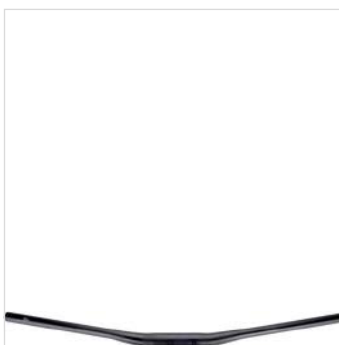

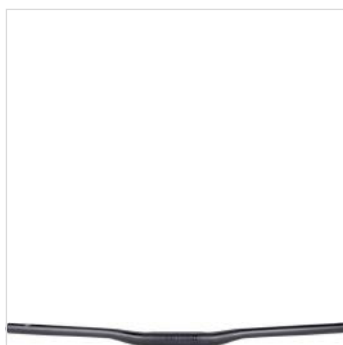

Description

CONTEC handlebar

The Moab 35 from CONTEC is a handlebar with a width of 740mm. Made from aluminum. The stem clamp is 35,0mm.

Your hands fall asleep every now and then while biking? This phenomenon is a thing of the past with this handlebar. The backsweep of 9° provides ergonomic grip of the handlebar. It defines the bending in the direction of the saddle. The handlebar has a rise of 15mm to counteract feelings of rollover on steep descents.
