CONWAY Electric SUV "Cairon SUV FS 4.0" (#2)

Description

Our "Cairon SUV FS 4.0" makes your everyday life sportier, more comfortable and simply more flexible. The Bosch mid-motor with Smart System provides you with powerful support up to 25 km/h, while the 800 Wh Battery - elegantly integrated in the down tube and easily removable from the top - ensures long-lasting tours.

Thanks to 120 mm front and rear suspension travel, you can glide relaxed over asphalt, gravel or forest paths. The Shimano "Deore XT" 12-speed derailleur works precisely and the hydraulic disc brakes are reliable. With 27" wheels, you can enjoy smooth running and maneuverability at the same time.

Practical: The HTM 2.0 front carrier mount allows clever transport solutions, the BCM module-ready makes your bike digitally connectable and the range extender-ready frame offers you even more range. Child Seat and trailer compatibility as well as eMTB+ mode round off the overall package.
