

SPEC-X Fork oil

Description

SPEC-X Fork Oil

synthetic, developed for use in fork systems of road and off-road motorcycle (upside-down forks, telescopic forks, shock absorbers). Together with specifically developed additives, this product achieved excellent damping properties at all temperatures and a high resistance to ageing for a long life of the motorcycle fork or the absorber. Please, follow the instructions of the fork manufacturer (OEM). Specifications and approvals: DIN 51524 part 3

MADE IN GERMANY - FILLED IN HOYA

SPEC-X lubricants are made exclusively from high quality first refinements and special additives., **10 W, 4l canister**

Article number:	05717004
