Description

HOFMANN MEGAPLAN Scissor Lift "Megalift 552"

Lifting capacity up to 3000 kg, short-stroke lift, electrohydraulic, includes mobile kit (#30A552)

Particularly suitable for tires, repair, and auto body shops. Features a double-braced strut for connecting and aligning the two guide rails, hydraulic synchronous control, a check valve and safety valve in case of a hose rupture, a high-speed hydraulic aggregate, and self-lubricating bolts in bronze bushings. The guide rails can be used as extensions via the ramps; the dimensions are very compact, and with Kit #30A552 (included), the lift is mobile., **plus hydraulic oil, shipping, and installation costs**
