

SRAM Chain "PC X1"

Description

Chain PC X1 from SRAM

On an MTB, the chain is exposed to comparatively high forces and must be able to withstand encounters with dust, dirt and moisture. The PC X1 chain from SRAM has been specially developed to meet these requirements.

The PC X1 is suitable for 11-speed drives. As the chain with its 118 links is made of steel, it is particularly hard-wearing.

A Connecting Link is included to connect the two loose ends of the chain.
