## new looxs Backpack "Odense Backpack"

### Description

#### The perfect companion for city trips

Whether you're biking to work or exploring the Danish city of Odense on foot, the NEW LOOXS backpack of the same name is perfect for both scenarios. With an 18-liter capacity, you can easily carry a camera, Rain Jacket, and snacks. Thanks to the padded interior compartment, it can also hold a 16 laptop when you head to the office. There's an additional slip pocket for your tablet.

The backpack is made of polyester and coated with a special plastic (TPU), making it very durable and waterproof. You can carry it in two ways: Either clamp it to your Carrier using the built-in hooks, or carry it on your back—in which case the hooks are hidden behind a zipper. Reflective accents round out the Odense Backpack's features—they make you more visible in traffic.
