CONWAY Gravel bike "Nyvo 10.0" (#1)

Description

Do you love speed on gravel, but also want to cruise relaxed through the city? Our "Nyvo 10.0" brings both together. The geometry ensures a sporty and comfortable riding position: the balanced stack and reach give you an active position with a good overview, while the head tube angle, stem length and compact Chain Stay ensure precise handling and efficient propulsion - ideal for fast gravel passages and urban trails.

With the Shimano "GRX" 12-speed drivetrain, hydraulic Disc Brakes and 28" wheels, you are technically well equipped. The lightweight carbon frame comes with fully integrated cables, plenty of mounting points and space for wide tires. The hidden neoprene bag in the frame compartment is a clever detail.
