CONWAY Gravel bike "Nyvo 10.0" (#1)

Description

Do you love speed on gravel but also want to cruise through the city at a relaxed pace? Our "Nyvo 10.0" combines both. The geometry ensures a sporty yet comfortable riding position: the balanced stack and reach allow for an active posture with a clear view, while the head tube angle, stem length, and compact Chain Stays provide precise handling and efficient propulsion—ideal for fast gravel sections and urban trails.

With the Shimano "GRX" 12-speed drivetrain, hydraulic disc brakes, and 28" wheels, you're perfectly equipped for any terrain. The lightweight carbon frame features fully integrated cables, plenty of mounting points, and space for wide tires. The hidden neoprene pocket in the frame compartment is a clever detail.
