

CONTEC Cable Lock "Page 85/12"

Description

Remember: If you think your bike is beautiful, thieves probably do too—so protect what you love from theft! The CONTEC Page Key 85/12 is a Security Level 5 Cable Lock, making it ideal for your daily commute to school, for example.

With all our locks, their names always indicate their length and diameter—so the Page Key 85/12 is 85 cm long and 12 mm thick. It's coated with a durable vinyl layer that protects not only the Lock itself but also your bike frame. Speaking of bike frames: With the included Holder, you can easily attach the Page to your bike—for example, to the frame or the Seatpost.

The highly flexible steel cable can be securely locked with a key. A total of three keys are included.
