

CONTEC Front Light "Luna 40"

Description

Affordable Radiance
The name "Luna" simply means "moon." Bright and radiant, the "Luna 40" LED Front Light from CONTEC fits perfectly into this picture. With a luminous intensity of 40 lux, it provides a reliable beam that other road users won't easily overlook.

The Dynamo-powered Front Light also features a parking light function. This means it continues to light up even when the bike is stationary. So while waiting at a traffic light or during short breaks, you still have a clear view and remain visible.

The Front Light is encased in a plastic housing featuring an illuminated CONTEC logo. This bike light also includes a removable front reflector, which further enhances visibility, and a plastic Bracket.

While one version of the "Luna 40" has "only" a parking light, the other version also includes a light/dark sensor that automatically turns the Front Light on as darkness falls.

These lights also bear a German certification mark, meaning they are 100% compliant with the requirements of the German Road Traffic Licensing Regulations (StVZO).

All in all, the "Luna 40" from CONTEC is a safe, reliable dynamo-powered Front Light that offers good value for the money.
