

SRAM Cassette "XG-795"

Description

"XG-795" downhill cassette from SRAM

The "XG-795" mini block cassette of the "X01 DH" groupset ensures that you can shift gears safely even in the hardest downhill. The cassette is super light, extremely durable and, thanks to optimized gear steps, makes double and triple shifting superfluous. The "XG-795" with 10-24 steel teeth is suitable for 7-speed drivetrains and XD Freewheel Bodies.
