mipa Fine surface filler "A40"

Description

MIPA Fine Putty "A40"

1-component acryl putty, quick drying, beige For equalizing of small bumps, scratches and pores on putty surfaces, priming surfaces or filler surfaces as well as on GRP or polished old sprayings. Apply only in thin layers also a direct adhesion to steel, aluminum, galvanized steel substrates and following plastics: ABS, PVC hard, PC, PS, PA, PP/EPDM, POM and A-PET. Due to the modified viscosity setting, a creamy consistency is given, which ensures a pore-free and easy application. Application only in thin layers, recoatable with all conventional paint systems., **250g tube**
