THULE Roof crossbar "WingBar EVO "

Article number:	360225L1
Original number:	711100
EAN:	091021729810
EVP:	**154.95 €**

Technical data

Main colour	black
Secondary colour	silver
Material	plastic
Material 2	aluminium
Max. load	100.0 kg
Weight	2.750 kg

Description

THULE roof bar "WingBar EVO"
max. load: 100kg, with T-nuts, lockable (keys are not incl.)
Bar for Thule Evo roof carrier. WindDiffuser technology disturbs airflow to reduce noise and drag for improved fuel economy. TrailEdge design reduces aerodynamic drag by allowing clean air separation from bar. SmartSlides slidable length scale doubles as an under-bar aerodynamic cover, providing quick, no-hassle rack installation. SwingBlade end cap pivots open to allow full access to the T-slot for easy accessory installs. Upper T-track with QuickAccess interface allows smooth installation and removal of accessories. BoxBeam internal structure creates an exceptionally strong load bar.
Note: Please also check the maximum roof load of your vehicle.

Attention! You will receive an accurate mapping of the vehicle only on the current Thule fit guide or on the Thule website **http://www.thule.com/de-de/de/buyers-guide**, **#711100, length: 108cm**
