

Product data sheet

KMC Chain "e10"

Description

10-speed chains from KMC

In order to withstand the high forces of modern e-bike drives, KMC has designed the E10 chain especially for use on pedelecs.

The chain is compatible with 10-speed drives. The E10 is made of stainless steel, which has a number of advantages such as low maintenance and corrosion resistance.

A special anti-rust coating makes the chain particularly robust and hard-wearing. A Connecting Link is included to connect the two loose ends of the Chain. The note "E-Bike-special" indicates that the chain is specially designed for the requirements of an e-bike.

Article number:	03342953
