

CONTEC Chain Guide "Guide.O BOSCH"

Description

Optimise your e-bike experience with the CONTEC Guide.O Bosch CX, a chain guide specially developed for Bosch 5th generation mid-drive motors. The chain guide combines lightweight aluminium with robust plastic to ensure consistent and efficient guiding performance. This effectively prevents your chain from slipping, even on dynamic rides.

The Guide.O Bosch CX is characterised by its precise workmanship. It is very easy to attach to the motor housing, which enables elegant and functional integration into the e-bike. The slotted holes for the motor housing and the nylon cage allow precise adjustment of the chain guide and minimise unnecessary friction. The Guide.O Bosch CX is suitable for use with chain rings from 32 to 38 teeth.
