Product data sheet

by,schulz Handlebar Adjusting System "Speedlifter Twist"

Article number:	03167764
Original number:	10011
EAN:	4251239300089
EVP:	**109.95 €**

Technical data

Design	Ahead
Features	rotatable, Twist function, adjustable
Range of application	City, MTB, Tandem, Trekking
Main colour	black
Stack height	60.0 mm
Material 1	aluminium
Shaft clamp	2 1/8"
Weight	0.326 kg

Description

Up and down, left and right
Handlebar height is crucial for an ergonomic riding position, but there is no one perfect handlebar height for all conditions.

With the BY,SCHULZ "Speedlifter Twist", the handlebar height can be adjusted in seconds without tools: Open the quick-release lever, set the correct height, close the clamping lever, very simply and without tools. The "Speedlifter Twist" is a Speedlifter with an additional twist function. This means that the Handlebar can not only be adjusted in height, but can also be twisted just as easily by up to 90 degrees to the left or right. No tools are required for this either. This means that the bike can be stored easily and space-savingly in the car, on the train or in the garage.
