

CONTEC Mounting Plate "Trunk Space"

Description

Professional mounting on the carrier

Deficiency of space on the bike? The CONTEC luggage box "Trunk Space" offers a lot of storage space for everything important. With the matching mounting plates, the box can be mounted firmly and securely on all common luggage racks. The elements made of sheet steel are painted black to match the box and are weatherproof. The assembly is simple with the 4 supplied screws.

The mounting kit is the perfect complement to the practical box.
