SSW Spreading tool "K 74"

Description

SSW "K 74" Setting Tool

Universal Axle Housing and Control Arm Spreader

For spreading axle housings and control arms to more easily remove shocks and suspension joints from their mounts. The forged spreader jaws are highly durable. Their special shape ensures they make broad contact with the slots. The spreader can be held in place with a 22 mm open-end wrench. Drive: 17 mm hex., **Min. slot width / Max. spread width: 4.5 / 10.5 mm**
